

RHYDEN

For best results, use all three steps of this guide to help you most accurately determine your ring size.

When printing: Uncheck "FIT TO PAGE" or select "ACTUAL SIZE" to have correct scale.

1. PAPER SIZER METHOD (Best results when hands are warm)

- Print and cut out ring sizer. Use x-acto knife to cut the small slit that is marked with an arrow.
- Slip pointed end through the slit, numbers facing out.
- Slide sizer down to the base of your finger
- Secure the ring sizer by pulling each end snugly around your finger like a belt
- Your approximate ring size should be the number that appears where it says, "Read Size"

2. FLOSS/STRING METHOD

Measure your finger by wrapping floss around it. Find the length of the floss that makes exactly one loop around, and use the chart below for reference.

Size:	Circumference: millimeters	Diameter: millimeters
0	36.5	11.6
1	39.1	12.4
2	41.6	13.3
3	44.2	14.1
4	46.7	14.9
5	49.3	15.7
6	51.8	16.5
7	54.4	17.3
8	56.9	18.1
9	59.5	18.9
10	62.1	19.8
11	64.6	20.6

Scale Checker: (2 inches)

CHECK FOR SCALE WITH RULER

RING SIZES IN THE US

Women's rings typically range from size 3 to 10. The most commonly purchased women's ring sizes at Rhyden range from size 3 to 7. Size 6 is our most popular size.

We guarantee to make the size that is ordered, but we cannot be responsible for conversions or fitting.

If in between sizes, we recommend sizing down.

3. MEASURE AN EXISTING RING (measurements match the *inside* of the band, you should still be able to see the entire circle)
